

Towards a culture of networld and internet security

DIAGEO

INTERNET SUMMIT AUSTRIA 2005

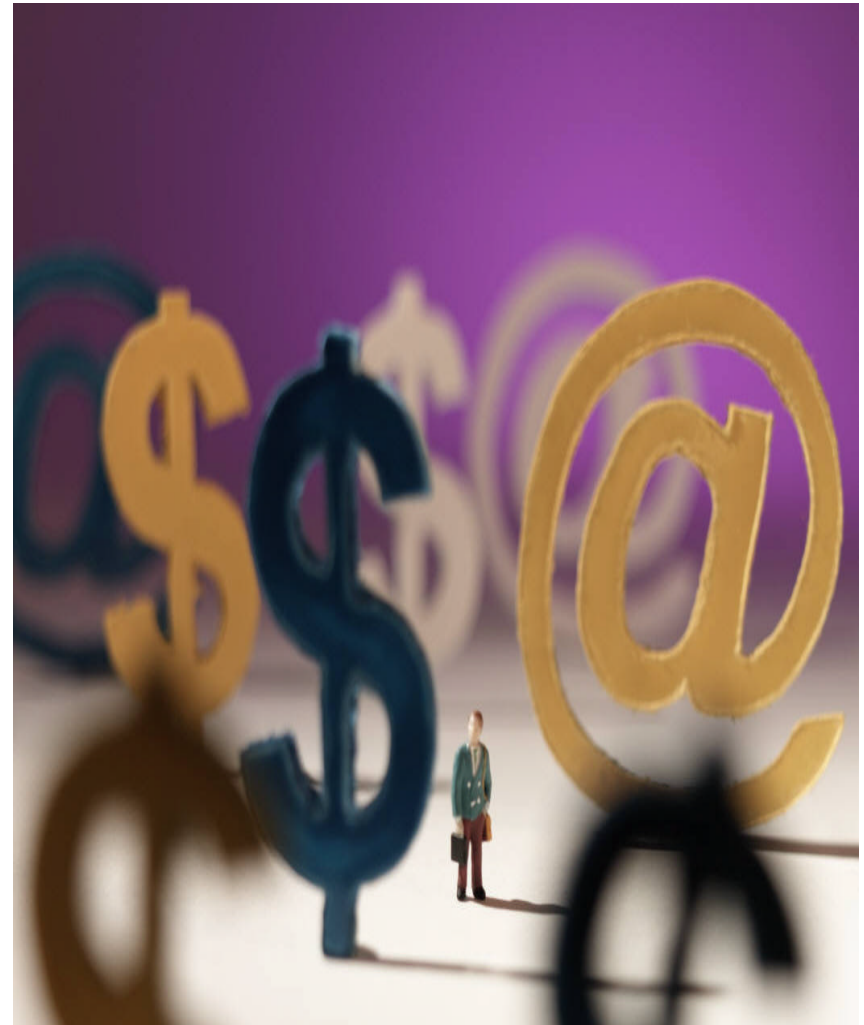

Dr. Claudia Natanson
CISO, Diageo

23rd November 2005

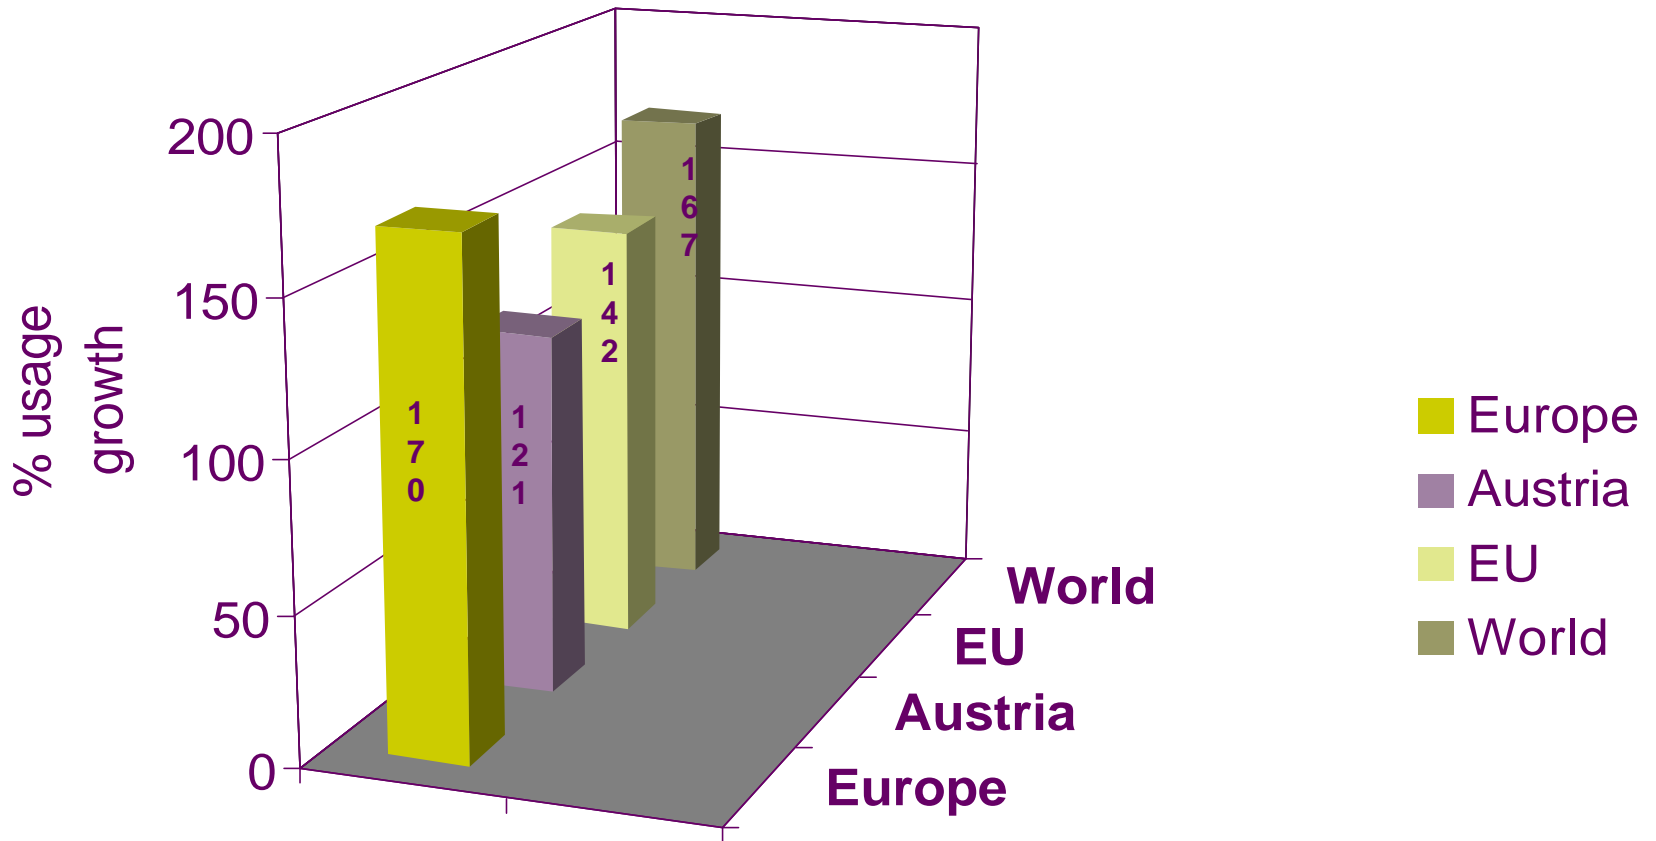

Networld Challenges

Rapid Internet
Population

Rapid Internet
Challenges

Title: Percentage Usage Growth 2000-2005

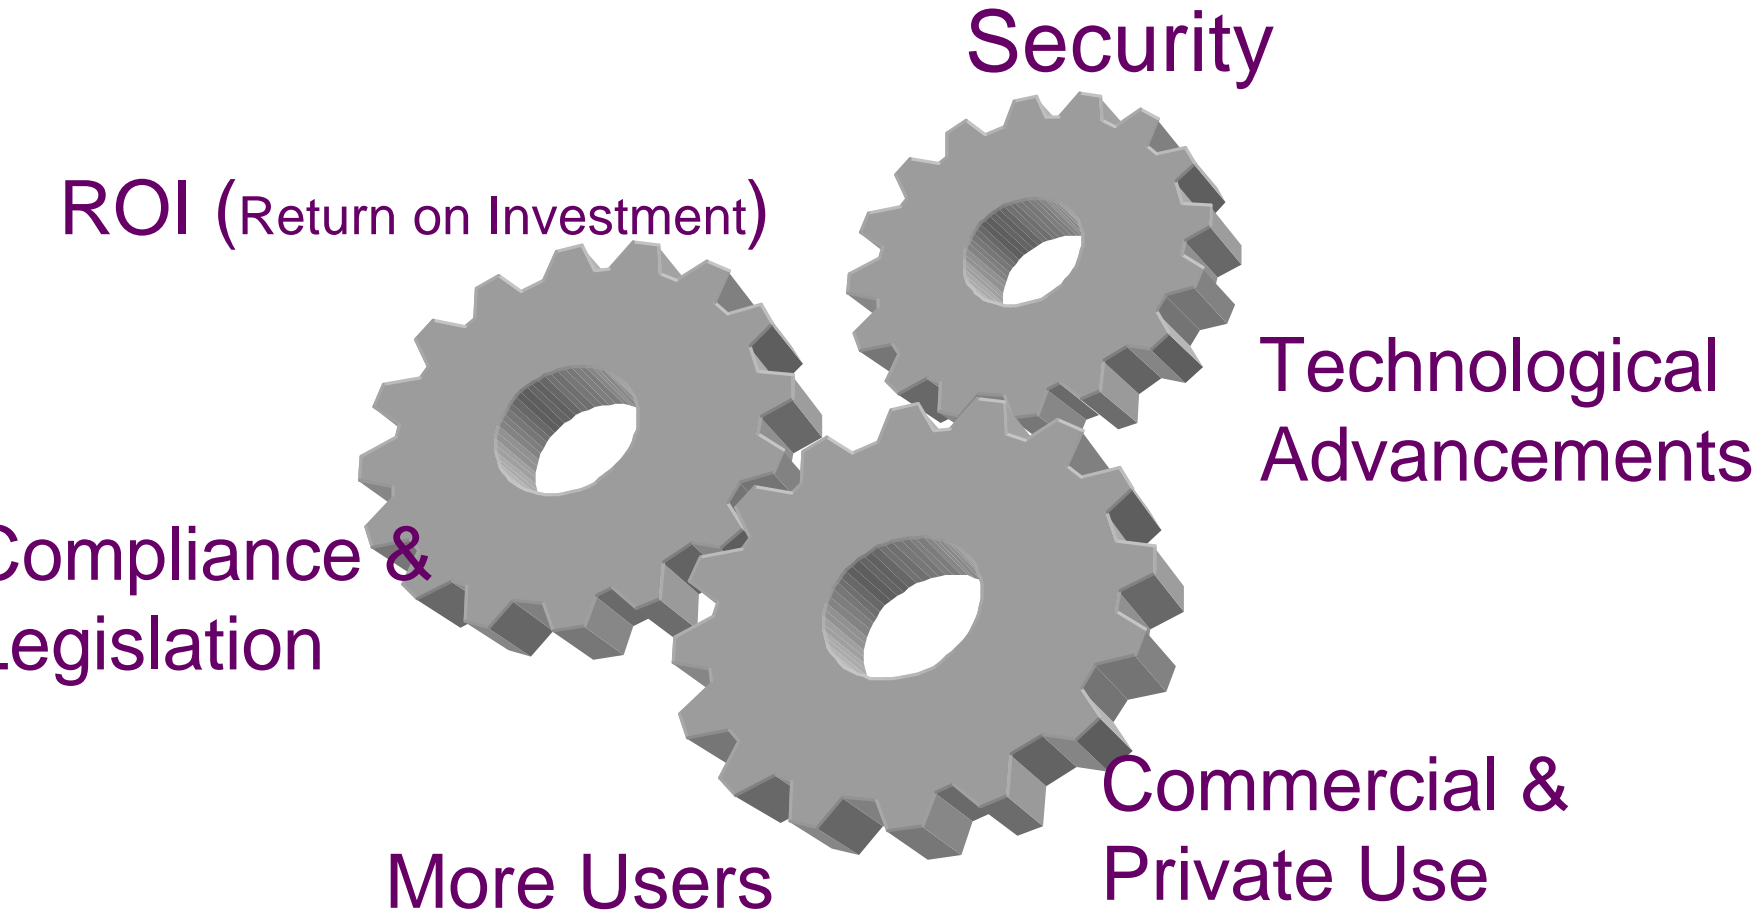

www.internetworldstats.com

- Content Liability e.g. defamation
- Intellectual Property Rights
- Crime detection and Surveillance e.g. Phishing, Identity Theft, Information theft
- Jurisdictional Exposure
- Data Protection
- Viruses e.g. Blaster, Sobig and Bugbear
- Spam and spy ware
- Botnets creating denial of service attacks
- Compliance such as SB1386, ISO17799, SOX
- Aiding and abetting acts of Terrorism via the Internet
- Return on Investment. (ROI)

Networkworld interdependence

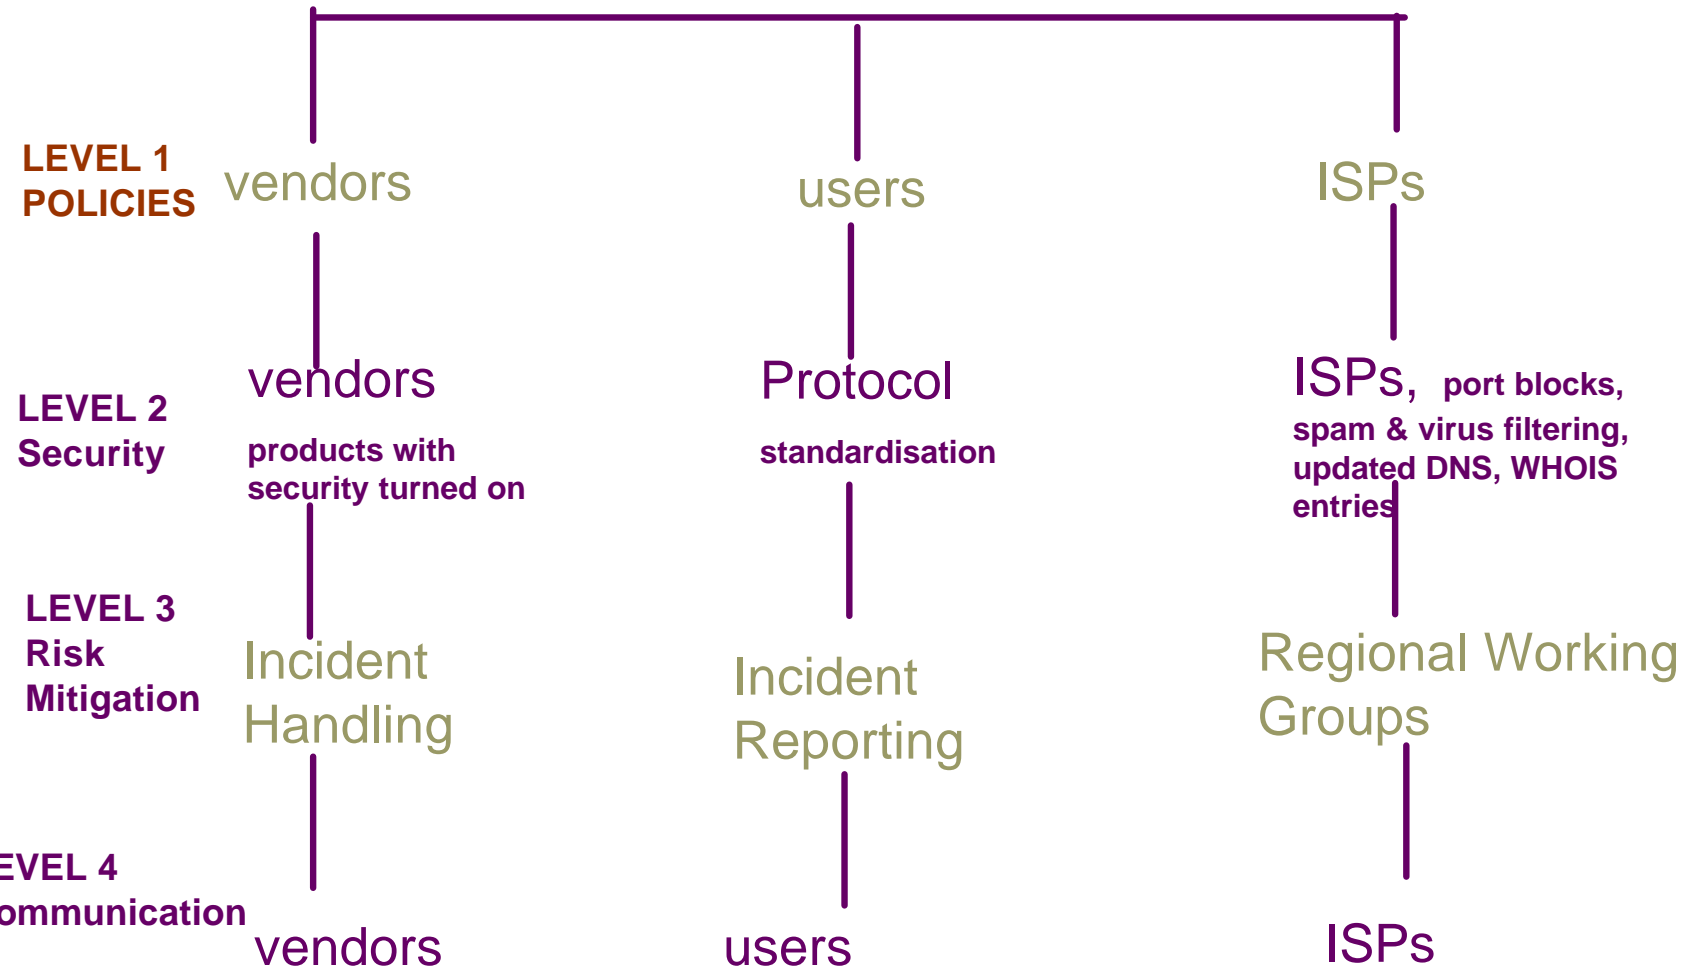

ISP Challenges

- > Service Providers & Users understanding the implications of the ever changing Internet landscape. **AWARENESS FOR CUSTOMERS & USERS.**
- > Vendor awareness around security products. **VENDORS AWARENESS.** Releasing products with security features ON.
- > Understanding the implication of an ever increasing Internet population. **AWARENESS FOR THE VULNERABLE AND YOUNG.** Chat rooms, Data protection, Paedophile legislations, Fraud etc.
- > Standardisation of compliance and legal issues. **AWARENESS FOR GOVERNMENT, LEGAL AND LAW ENFORCEMENT AREAS.**
- > Raising the bar on best practices for network & system security. **AWARENESS FOR SERVICE PROVIDERS**

Creating Internet Governance

LEVEL 4 Communication
